TOGETHER WE STAND

Dear Earth Warrior,

This is an invitation to join us in bringing to light a monumental truth with the potential to end evil, corruption and tyranny around the world. This truth, within the realm of “Common Law”, empowers us, the people, to address a core deception; a trespass committed against each and every one of us.

Governments have been - and still are - complicit in perpetuating a system of government built on fraud and corruption. As our parents officially registered our births, our governments unlawfully and non-consensually used our given and family names in such a way as to turn us into government property. This is a violation for which we intend to hold the members of each government - or “service corporation” - accountable.

This unlawful governmental control, by which we have been oppressed since birth, can be invalidated. We can put an end to

our predicament as “chattels of the state” by exposing the constructive fraud perpetrated upon us by our governments.

At Earth United, we have discovered that the process of “Common Law” is the master key to making the world a better place. Common Law has the potential to end governmental deception, control, manipulation and corruption.

Christopher James is a Canadian Common Law specialist who has dealt with multiple, high profile Common Law cases over the past twenty years. Earth United is working closely with Christopher and his truth network, “A Warrior Calls”. We are also working with many other experts, influencers, public figures, content creators and organizations in order to bring this truth to the attention of people all over the globe.

We need to act quickly and we need your help. We are looking for YouTubers, online influencers, public figures and organizations to join us in our quest to create a new world founded on freedom and truth.

This invitation is part of our media campaign. With the help of our alliances, we intend to spread this message far and wide, turning it into a hot topic in the truth community and helping to direct traffic to Earth United, thus expanding our global network.

When this network is big enough, we will decide when, where and how to proceed with public court appearances.
